Aureliano Tackoen

Date of birth: 15/05/1982 | **Nationality:** Belgian | **Phone number:** (+32) 474935100 (Work) | **Email address:** aurel.tackoen@opengraphy.com | **Website:** www.opengraphy.com | **LinkedIn:** https://www.linkedin.com/in/atackoen/ |

Address: 92 Square Eugène Plasky, 1030, Brussels, Belgium (Work)

ABOUT ME

Senior Solution Architect with over 14 years of experience designing and delivering digital platforms and enterprise applications.

I specialise in defining Architectures structured according to established design and governance principles, Interoperability and security frameworks emphasizing accountability, resilience and data protection by design.

My approach combines strategic vision, technical expertise and user-centric design to build sustainable, scalable and high-performance systems for public administrations and private organisations alike.

WORK EXPERIENCE

OPENGRAPHY – BRUSSELS, BELGIUM

CTO & FOUNDER – 01/01/2010 – CURRENT

- **Enterprise Architecture** – holistic design of modular and interoperable architectures.
- **Modelling & Governance** – UML, process modeling, business capability mapping.
- **Interoperability** through standardized data exchange models, API integration and modular service frameworks.
- **Security & Compliance** approach emphasizing accountability, resilience, and data protection throughout the system lifecycle.
- **Data Architecture** – conceptual data modeling (UML), master data strategy, data flow diagrams.
- **Sustainable IT** – eco-design/conception principles, low-impact digital practices, documentation durability.
- **Leadership & Collaboration** – steering committees, stakeholder communication, technical coordination.

LBI – BRUSSELS, BELGIUM

AUDIO VISUAL DESIGNER – 01/01/2008 – 31/12/2009

MY MEDIA IS RICH – BRUSSELS, BELGIUM

ABOUT ME

As a Web Developer with a strong background in graphic design and a passion for digital arts and communication technologies, I bring over five years of experience in digital and multimedia project management, along with a year and a half dedicated to developing websites and web applications.

I am proficient in HTML, CSS, SASS, and Bootstrap, and have working knowledge of JavaScript and PHP. I have hands-on experience with frameworks such as Vue, React, and Laravel, as well as with Node.js and Express libraries. I am also familiar with WordPress and Drupal development, including theming, custom module development, and site configuration.

My technical skills include version control with Git, and the use of platforms like GitHub and Bitbucket. I have a solid understanding of Docker and container orchestration, as well as extensive experience working with Linux/Unix and Windows environments, using command line tools, pipes, and managing environment variables.

Additionally, I have practical knowledge in server setup and configuration, including SSH access, auditing, monitoring, and firewall management. I have worked with AWS and other cloud service providers and am committed to providing excellent communication and support to both clients and team members.ne description de vous-même ici...

WORK EXPERIENCE

Web developer

OpenGraphy [2021 – Current]

Project(s):

- https://www.tablemanager.be/
- https://www.ademeure.fr/
- https://www.incomeswiss.com/
- Restofactory
- OpenGraphy

Taks :

- Integration and development
- Design and website architecture
- Wireframing
- Server and cloud management / Site and DNS migration / Maintenance and security
- Optimization and audits
- Videography
- Graphic Design

Techs: WordPress / CMS / custom websites / Custom Plugins / Drupal

Tools: Plesk / php / SQL / bash scripting / terminal / linux / figma / notion/

Davinci Resolve / Adobe CC

Methodology: Agile

Wordpress developer

Freelance | Self Employed [2019 – 2021]

Project(s):
- http://queenkongbrand.com/
- https://www.manonbara.com/

Taks:
- E-commerce and site development
- Maintenance and plugin updates
- SEO, writing and content management
- Design, prototyping, conception and development
- Support and definition for web and social medias strategies
- Audits et analysis: GSC, GA, GTM

Technologies: WordPress [Woocommerce, Elementor, Yoast, WPForms, Wordfence], API's, CSS, DOCKER, Linux OS, Linux Servers, Version de Contrôle, Google Analytics et Google Tag Manager, Instagram, Facebook

Web developer

8Trust [2021]

Project(s)
- https://www.allegrarte.com/
- https://www.peter-sabine.be/
- https://www.sourceasbl.be/
- https://www.domainesaintroch.be/
- https://www.8trust.com/

Tasks:
- Client Advice & support
- Content management and CMS updates for web sites and e-commerce
- Design, development & implementation of new features & solutions on websites
- Building environments and pipelines for local, staging and production development

Technologies: WordPress [ACF, Custom Plugins, ...], DRUPAL, PHP, MySQL, JavaScript & jQuery, CSS & SASS, Bootstrap, Docker, Linux OS, Linux Servers,CLI, Git and Github

Frontend developer

Typi Design [2020]

Project(s)
- https://microstart.be/

Tasks:
- Front end development following rigorous requirements
- Prototyping & mock up designing, resizing, retouching
- Audit and reporting on Accessibility(WCAG AA), performance, SEO and customer guidelines

Technologies: Laravel, PHP, CCS3, HTML5, WEBPACK, MariaDB, Git and Github, npm and nodeJS, Mac, Custom CMS, Responsive frameworks: Bootstrap, UI Design Tools: Adobe XD, Illustrator, Photoshop

Front-end web application developer jr.

BeCode.org [2019 – 2020]

As part of this training participants learn how to build websites and web applications in order to become Junior Frontend or Backend developing great professional soft skills: reliable, eager to learn, team player and solution mindset.

Hard skills trained during this course: Terminal, Git, MarkDown, HTML, CSS, SASS, CSS Frameworks, JavaScript, OOP, MVC, JavaScript libraries and Frameworks (React), Serverside Javascript (nodejs), PHP...

Audio video technician

Memnon Archiving Services [2017 – 2019]

Project(s):
- BBC film and video archives digitization
- Nelson Mandela Foundation video archives digitization
- RTBF video archives digitization
- BNE Spanish National Library video and audio archivesdigitization

Tasks:
- Project management and supervising 4 people at a time
- Responsible for operating electronic equipment for video and audio digitization
- Scheduling and deadlines
- Documentation writing: Draft of procedures and technical manuals for the team
- Scripting and automation
- Quality control

Technologies: QCTool, Final Cut Pro, Adobe CC, DaVinci Resolve, JIRA management service

Freelancer

Audio visual specialist [2009 – 2017]

Client(s):
Fondation d'entreprise Hermes / Auguste Orts Productions / Productions Associés ASBL / European School / ProJeuneS / Baillon Design / FIAC / Pianofabriek ASBL / 3bisF / Bureau International de Jeunesse / ZINT TV / RadioPanik

Project(s):
- Films: The Joycean Society, Imposed Words, The deviant majority, ...
- Scenography & installations: "The Thinker as Poet", curator Guillaume Désanges, ..

Tasks:
- Project design & planning
- Support and assist in the large setup of concert audio and video productions, trouble shoot and operation of I.T.
- Research in the field of digital signal
- Installation of codecs, cameras, monitors and microphones
- Performed quality control of audio, video and close captioning elements for DVD, and CD duplication

Technologies: Analog – DV / HDV / HD signals, Final Cut Pro, Motion, Audio engineering software, UI Desing tools: Adobe CS [Photoshop, Illustrator, InDesing, Premiere, After Effects, ...]

Web content editor

MADRID EXCELENTE [2007 – 2009]

Project(s):
- https://www.comunidad.madrid/
- Madrid's Regional Government daily report
- Internal and external communication
- Corporate and campaign image

Tasks:
- Web content management
- Responsible for operating electronic equipment for web broadcasting
- Design adjustment, resizing, bannering

Technologies: Adobe Premiere, Photoshop, In Design, Lightroom, Final Cut Studio, Motion, Dreamweaver, Drupal, UI Desing tools: Adobe CS [Photoshop, Illustrator, InDesing, Premiere, After Effects, ...]

Camera operator/ Cinematographer

Freelancer [2006 – 2007]

Client: Enrique Bocanegra

Project Name: Film: Última Parada: Tanger
Project description and main objectives: Documentary film. Shooting, interviewing, audio mixing and video editing.

Activities and responsibilities:
- Video editor
- Camera Operator

Technologies used: HD, Final Cut Pro, Motion, After Effects, 35mm.

EDUCATION AND TRAINING

JavaScript Web Application, Informatique
EPFC [2020 – 2021]

Secure Developer / DevOps Traineeship, Computer and Information Sciences and Support Services
BeCode [2020]

Michaël Godefroid

Email address: michael.godefroid@opengraphy.com

LinkedIn: Michaël Godefroid

Website: www.opengraphy.com

Work: Sq. Eugène Plasky 92, 1030 Brussels (Belgium)

ABOUT ME

I am Michaël Godefroid, a senior web developer at OpenGraphy for over 10 years. As a fullstack development and DevOps specialist, I work on all client projects, both on the front-end and back-end. Proficient in a wide range of technologies and APIs, I am able to meet the diverse needs of various projects. I have notably developed website creation platforms, automated WordPress CMS deployments, and optimized email compatibility across multiple devices. I also have strong expertise in Drupal, including custom module development, Drupal site building, and complex migration projects, both from Drupal to newer Drupal versions and from Drupal to other CMS platforms. My goal is to continuously improve development processes to deliver high-performance and innovative solutions.

WORK EXPERIENCE

Senior full-stack & devops developer

[2013 – Current]

Full-stack Developer: involved in both front-end and back-end development across all client projects for the agency. Proficient in a wide range of technologies and their interactions.

Development of website creation platforms enabling the launch of new websites in just a few clicks, with custom graphic themes and auto-populated content (HTML/PHP/CSS/VueJS).

Writing scripts for one-click automated deployment of WordPress CMS, including SSL and plugins.

Email formatting to ensure maximum cross-device compatibility.

Experience in Drupal site building and module development, as well as handling Drupal migrations and integrations with third-party systems.

Back office specialist

KPN Orange [1999 – 2002]

Clément Daligault

Email address: clement.daligault@opengraphy.com

Website: www.opengraphy.com

Work: Sq. Eugène Plasky 92, 1030 Brussels (Belgium)

ABOUT ME

Passionate about front-end development, I specialize in designing intuitive, user-centered, and accessible web interfaces. With over two years of experience at OpenGraphy, I have contributed to a variety of projects, including for public institutions in Brussels, where I deployed and configured WordPress websites, created responsive mockups, and handled ongoing maintenance and debugging.

My academic background at ESA Saint-Luc Brussels, combined with a work-study program in front-end web development, has provided me with strong expertise in graphic design and illustration, which I apply to enhance user experience and interface design.

I am committed to applying accessibility best practices (WCAG) to ensure that all users, regardless of their abilities, can navigate and interact with digital content seamlessly. I have also worked with Drupal on several projects, contributing to them from a front-end and design perspective.

WORK EXPERIENCE

Front-end developer

OpenGraphy [2022 – Current]

As a Front-end Developer at OpenGraphy, I have worked on a variety of web projects, including for public institutions in Brussels such as hoteldeville.stgilles.brussels and front-office.brussels.

In this role, I am involved in the deployment and configuration of WordPress websites, as well as the development of front-end interfaces using frameworks such as Vue.js, React, and NodeJS. I create responsive and accessible mockups to ensure optimal user experience across all devices.

In addition to these public sector projects, I contribute to the development of custom web platforms tailored to client-specific needs, focusing on building performant and scalable solutions.
I also participate in Drupal-based projects, providing front-end development and theming support when required.
